

Look Book

Zambia Crafts
2020

The 2020 Zambia Crafts Look Book is a collection of works by Zambian artisan companies and groups. Showcasing the diversity, the talent and the rich and unique traditions that celebrate Zambia and its people, this look book embodies the significance of hand made crafts as tangible expressions of a country's cultural assets.

The Zambian craft sector has been steadily growing in recent years influenced by increased global interest in consumption of local cultural products that are sustainable and fair trade. Expansion of the sector has the potential to create numerous jobs, improving the livelihoods of artisans, their families and communities.

Supporting the Zambian craft sector is supporting a meaningful and authentic time-honoured practice employing custom tools and methods ensuring one of a kind pieces that retain a traditional look and feel.
